ORDINANCE NO. 174.01

AN ORDINANCE GRANTING ACCESS TO MULTI-UNIT HOUSING STRUCTURES
AND CERTAIN PRIVATE ROADS BY UNITED STATES CENSUS BUREAU
EMPLOYEES

WHEREAS, The United States Constitution directs a decennial census count of all persons living in the United States; and

WHEREAS, During the decennial census, the United States Census Bureau conducts Non-Response Follow-up Operations (NRFU), when employees of the United States Census Bureau visit households that have not yet submitted a census form; and

WHEREAS, Renters and others who live in multi-unit housing structures have historically been at higher risk of being undercounted in the decennial census, with the number of renter households in an area being the most influential variable affecting an area's census self-response rate; in other words, the more renters in an area, the lower the self-response rate of that area; and

WHEREAS, The risk of an undercount is compounded in areas with high concentrations of communities that have been consistently undercounted in the past and who are more likely to be renters, including low-income households, communities of color, Native American/American Indian communities, immigrants and refugees, and young people; and

WHEREAS, Multi-unit housing structures can be difficult for Census Bureau employees to enter due to security barriers; and

WHEREAS, It is critical that Census Bureau employees have access to multi-unit housing structures during the decennial census, so they can reach households that have not yet participated;

WHEREAS, 13 U.S. Code § 223 authorizes Census Bureau employees to access "any hotel, apartment house, boarding or lodging house, tenement, or other building"; and

operations during the Census Bureau's standard operational hours of 9:00 a.m. to 9:00 p.m. (local time) during the decennial census; and Be It Further
